Brian Salehi

Software Engineer

Professional Summary I'm a Linux application and system programmer working on UI applications, 3D graphics programming, image processing and embedded devices using C, C++ and Java programming languages, and many advanced development tools to do my work more effectively and efficiently. I'm also a huge fan of open source and I'm investing some of my time on contributing to it. And finally I have a solid studying background with a strong desire of reading technical and non-technical books.
